

Power Load BD

We are the best Electrical & Electro Mechanical service provider in Bangladesh

Our Products

- Sub Station
- Transformer
- HT Switchgear
- LT Switchgear
- MDB, DB, SDB Panel
- Generator
- Lift
- Solar Panel

Our Services

- ✓ Transformer servicing
- ✓ Transformer Oil Centrifuge.
- ✓ Substation Installation/ Commissioning & Servicing.
- ✓ HT/LT/PFI/ATS/MDB/DB & Others Switchgear Panels Installation/ commissioning & Servicing.
- ✓ Cable Tray/ Ladder Installation.
- ✓ Power cable laying & Termination.
- ✓ Others Electrical & Mechanical related servicing Works.

Power Load BD

ABOUT US

Power Load BD is a leading Electrical, Mechanical Engineering Company of Bangladesh providing a broad spectrum of services to various Sectors.

Power Load BD is engaged in Designing, Manufacturing, Installation & Commissioning of electro-mechanical equipments.

OUR VISION

Our focus to ensure customer satisfaction by meeting their needs & Expectations with the supply of quality products.

OUR MISSION

Our Mission is to maintain by Providing the best & most effective solutions to fulfill customer requirements.

HIGH VOLTAGE SWITCHGEARS

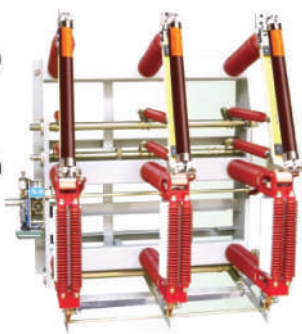

Power Load BD is specialized in the manufacturing of sheet metal clad, totally enclosed, dusttight, vermin proof, floor mounting Indoor/Outdoor type, fully interlocked, air insulated

11KV VCB & LBS Panel

based HV Switchgear suitable for 11KV 3phase, 3wire, 50Hz system, in free standing design, tested & finished in accordance with all standard including accessories with a set of 3 phase insulated & copper bus bars rated capacity, earthing bar, inter connections fine wiring with cleats and ferules, connection studs, manual charging handle, cable sockets, signation labels, holding down bolts, complete with, metering and protection for Industrial ,commercial & Domestic use as per Clients Requirements.

Power Load BD

LOW VOLTAGE SWITCHGEARS

Complete range of Low Voltage Switchgear comprising of Sheet steel fabricated, finished with electro-static powder coating, free standing , indoor /outdoor type according to BNBC, RS & others standard suitable for system voltage 415 V, 50Hz, 3-Phase and Neutral with built in special protection devices like earth fault, under voltage, over voltage and over heating, shunt trip, electrical & mechanical interlocking. The LV switching device is selected in accordance with customer's specification.

ACB

Motor Control Center (MCC) Panel
Standard and Compartmentalized Motor Control Center with Star Delta, Direct on Line (DOL), VFD and Soft Starters for complete range of Motors at 110V, 220V and 415V.

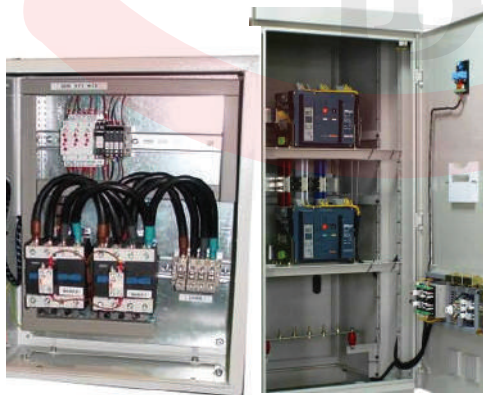

MCCB

CONTACTOR

CAPACITOR

Automatic Transfer Switch (ATS) is often installed where a backup Source is located, so that the Source may provide temporary electrical power if the mainspower source fails.
